Square Catch Basins: 9\", 12\" and 18\"

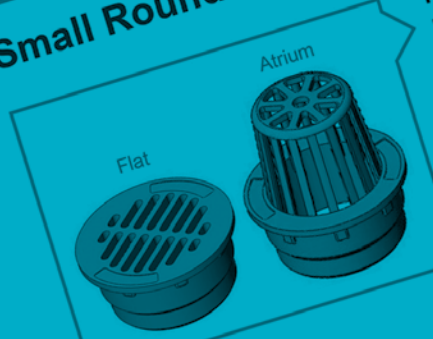

Features:

- Manufactured from High Density Polyethylene (HDPE).
- UV stabilized to protect from sun degradation.
- Two or four side panel openings with perforated opening at the bottom of each panel.
- Includes four 5/8\" potential drain holes.
- Use a 3\" and 4\" Basin Adapter (ABA34 or ABA6) to connect to 3\" & 4\" Corrugated Pipe and 3\" & 4\" Triple Wall Pipe.
- Use a 6\" Basin Adapter (ABA6) to connect to ASTM D2729 and ASTM D3034, SDR 35) Corrugated Pipe.
- Use a Basin Plug to plug unused outlets.
- Use 9\" or 12\" Square Basin Riser(s) to extend height and 12\" Square Catch Basins, respectively.
- Accepts 9\", 12\" and 18\" Square Flat and Square Atrium Grates.
- Includes 4 screw holes to enable grates to be secured to basin.
- Made in the USA.

1.5" Channel Drain and Universal Fitting Kit

Tempo's 1.5" channel drain system is a proven alternative to traditional concrete channel drain. The system comprises a PVC profile extruded channel plus a snap-in overlapping grate and all the popular fittings required for installation.

Coupling - CC15

End Plug - CEP15

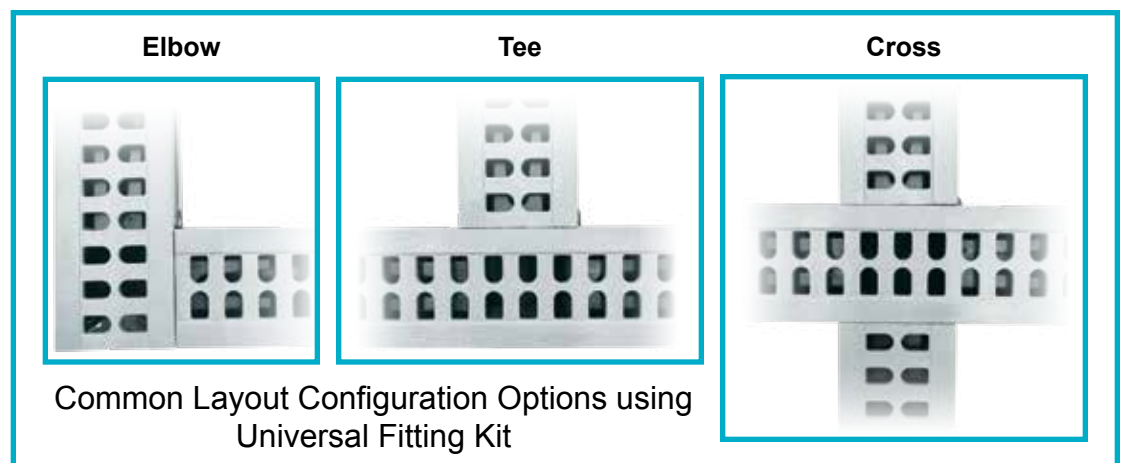

End Outlet Adapter - CA15

Stabilizer Plate w/ Stakes - CSP15

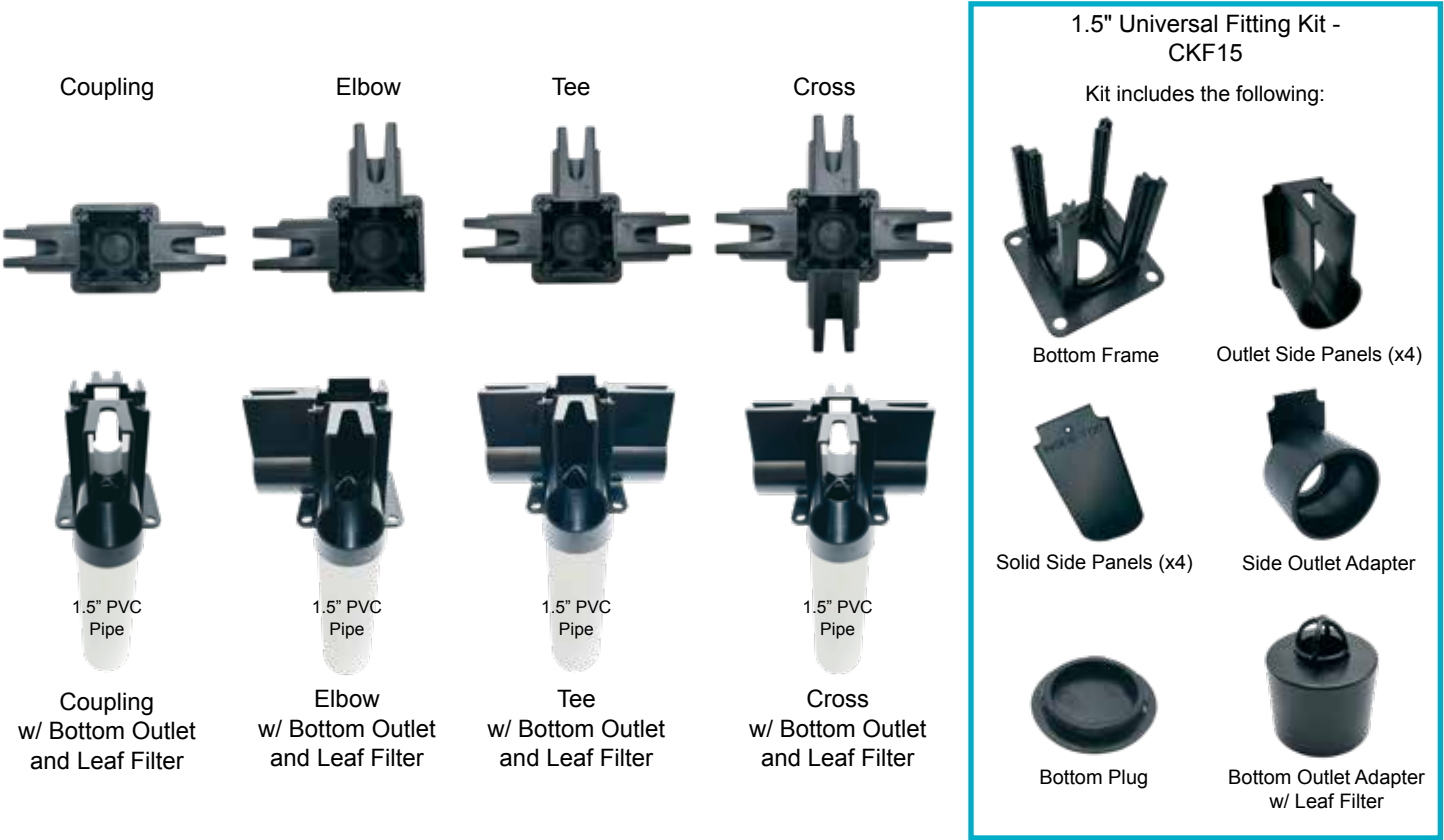

- Robust PVC profile extruded channel.
- Structurally foamed HDPE snap-in overlapping grates. No screws required.
- Grates available in white, grey, sand, green or black colors.
- Channel available in 8' lengths.
- Tight fitting couplings, end plugs and end outlet adapters.
- Applications for driveways, pool decks, sidewalks, parking lots, courtyards and sport courts.

Patented universal fitting kit can be assembled into couplings or elbows or crosses with both bottom and side outlet options. See next page for additional details.

1.5" Universal Fitting Kit

Tempo's Universal Fitting Kit is a first of its kind in the industry. Each kit comes with everything you need to assemble the required fitting for your 1.5" wide channel drain system. The modular design can easily be assembled to make elbows or tees or crosses with a bottom or side outlet adapter. The fitting connects with the channel lengths to make a streamlined drainage system. Snug fit with no glue necessary.

1.5" PVC Pipe

- Robust PVC profile extruded channel.
- Structurally foamed HDPE snap-in overlapping grates. No screws required.
- Grates available in grey, sand, green or black colors.
- Channel available in 4' or 8' lengths.
- Tight fitting couplings, end plugs and end outlet adapters.
- Applications for driveways, pool decks, sidewalks, parking lots, courtyards and sport courts.
- Large slots allow flows in excess of 25 gpm per foot.
- Lightweight modular sections for easy installation.
- No glue required.
- ADA compliant.

Patented universal fitting kit can be assembled into couplings or elbows or bottom outlet adapters and by itself as a stand alone small catch basin with bottom outlet. See next page for additional details.

1. Maximum load based on weight uniformly applied across entire grate surface.

2. Grates will fit 6" Sewer Pipe (ASTM D3034, SDR 35) provided the pipe wall thickness is close to the specified minimum of 0.180".

3. Due to wide manufacturing tolerances of Corrugated Pipe, this fit may not be perfect. If loose, push to larger diameter.

Large Round Grates: 8", 10", 12", 15" and 18"

Features:

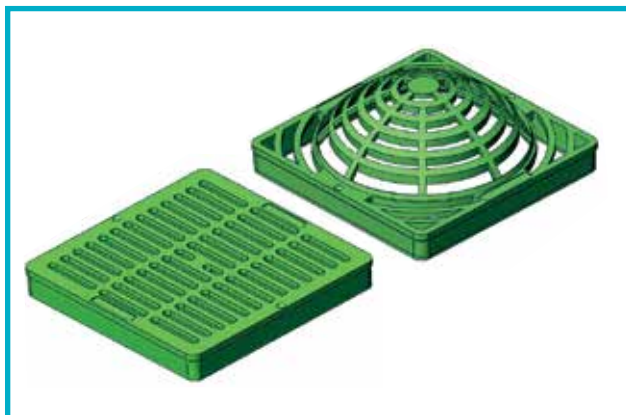

- Manufactured from structurally foamed High Density Polyethylene (HDPE).
- UV Stabilized to protect from sun degradation.
- Available in green and black.
- Each diameter and tab fits many different pipes including SDR 35 PVC Pipe, Single and Double Wall Corrugated Pipe, Schedule 40 PVC Pipe and C76 Concrete Pipe.
- Textured anti-skid surface.
- 8" and 10" Grates are ADA compliant.
- 12", 15" and 18" Grates include bolt holes to allow for securing to pipe (use #10 1.5" long Phillips flat head stainless steel screws).
- Made in USA.

1. Maximum load based on weight uniformly applied across entire grate surface.

2. Due to wide manufacturing tolerances of Corrugated Pipe, this fit may not be perfect.

Square Universal Grates: 6"

Features:

- Manufactured from structurally foamed High Density Polyethylene (HDPE).
- UV stabilized to protect from sun degradation.
- Available in green, black, sand and grey.
- Textured anti-skid surface.
- Load rated for pedestrian traffic.
- ADA compliant.
- Made in the USA.

1. Maximum load rating based on basin encased in concrete and weight uniformly applied across entire grate surface.

Pop-Up Relief Valves

Features:

- Available in 4 configurations.
- Pop-Up body manufactured from structurally foamed High Density Polyethylene (HDPE).
- Elbow (where applicable) manufactured from PVC.
- Adapter (where applicable) manufactured from High Impact Polystyrene (HIPS).
- UV stabilized to protect from sun degradation.
- Cover rises 1/2" to discharge excess water in system.
- Spring automatically retracts cover to flush position after excess water is discharged.
- Can be used in both vertical and horizontal position.
- Stainless steel spring to prevent rusting.
- PVC elbows (where applicable) include a 1/4" drain hole to eliminate standing water.
- Made in the USA.

Round Catch Basins: 6"

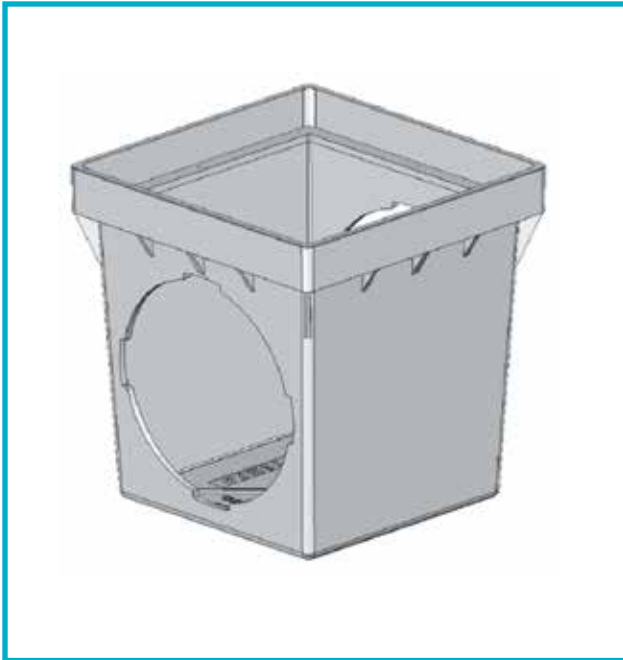

Features:

- Manufactured from High Impact Polystyrene (HIPS).
- UV stabilized to protect from sun degradation.
- Available in both 1 and 2 outlet models.
- Universal outlet used to connect to 3" & 4" Sewer & Drain Pipe (ASTM D2729), 3" & 4" Corrugated Pipe and 3" & 4" Triple Wall Pipe.
- Accepts 6" Round Flat Grates, 6" Round Atrium Grates and 6" Square Universal Grates.
- To extend height of basin, use 6" PVC Pipe (ASTM D2729 and ASTM D3034, SDR 35) as a riser.
- Includes a sump to allow sediment to settle in basin to minimize clogging of pipes.
- Made in the USA.

Square Catch Basins: 9", 12" and 18"

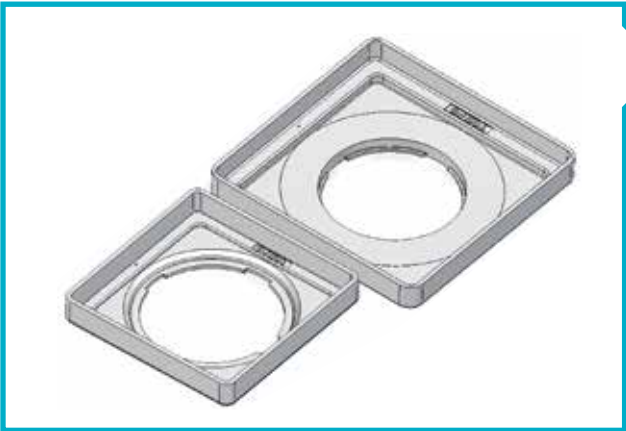

Features:

- Manufactured from High Density Polyethylene (HDPE).
- UV stabilized to protect from sun degradation.
- Two or four side panel openings plus an optional perforated opening at the bottom of the basin.
- Includes four 5/8" potential drain holes at bottom.
- Use a 3" and 4" Basin Adapter (ABA34 or ABAO34) to connect to 3" & 4" Sewer & Drain Pipe (ASTM D2729), 3" & 4" Corrugated Pipe and 3" & 4" Triple Wall Pipe.
- Use a 6" or 8" Basin Adapter (ABA6, ABA8) to connect to 6" or 8" PVC Pipe (ASTM D2729 and ASTM D3034, SDR 35) and 6" or 8" Corrugated Pipe.
- Use a Basin Plug to plug unused outlets.
- Use 9" or 12" Square Basin Riser(s) to extend height of 9" and 12" Square Catch Basins, respectively.
- Accepts 9", 12" and 18" Square Flat and Square Atrium Grates.
- Includes 4 screw holes to enable grates to be secured to basin.
- Made in the USA.

Square Low Profile Basins: 9” and 12”

- Features:**
- Manufactured from High Impact Polystyrene (HIPS).
 - UV stabilized to protect from sun degradation.
 - One bottom opening designed to accept Basin Adapters (ABA34 and ABA6).
 - Use a 3” and 4” Basin Adapter (ABA34) to connect to 3” & 4” Sewer & Drain Pipe (ASTM D2729), 3” & 4” Corrugated Pipe and 3” & 4” Triple Wall Pipe.
 - Use a 6” Basin Adapter (ABA6) to connect to 6” PVC Pipe (ASTM D2729 and ASTM D3034, SDR 35) and 6” Corrugated Pipe.
 - Accepts 9” and 12” Square Flat and Square Atrium Grates.
 - Includes 2 screw holes to enable grates to be secured to basin.
 - Made in the USA.

6" Round Valve Boxes

A robust 6" round valve box with snap-in lid. Used as a durable enclosure to protect and provide easy access to valves or subsurface components of an irrigation system. Has overlapping lid to prevent dirt and grass from lodging between lid and body.

Features:

- Available in green, black, sand and purple.
- Secure snap-in lid.
- Lift hole in lid for easy removal.
- Skid resistant lid.
- Bottom flange to prevent sinking.
- "ICV" or "Reclaimed Water" marking.
- Overlapping lid prevents dirt and grass entering box.
- Pre-molded pipe slots (fits up to 2" diameter pipe).
- Manufactured from structurally foamed HDPE.
- Contains UV inhibitors to prevent discoloration.
- Made in USA.

10" Round Valve Boxes

A robust 10" round valve box with twist lock bayonet style lid. Used as a durable enclosure to protect and provide easy access to valves or subsurface components of an irrigation system. Has overlapping lid to prevent dirt and grass from lodging between lid and body.

Features:

- Available in green, black, sand and purple.
- Secure twist lock bayonet style lid.
- Two blind holes in lid to easily rotate lid for removal.
- Skid resistant lid.
- Lockable lid option to prevent vandalism.
- Stepped body for additional side wall support.
- Bottom flange to prevent sinking.
- "ICV" or "Reclaimed Water" marking.
- Overlapping lid prevents dirt and grass entering box.
- Pre-molded pipe slots (fits up to 2.5" diameter pipe).
- Manufactured from structurally foamed HDPE.
- Contains UV inhibitors to prevent discoloration.
- Made in USA.

14" x 19" Standard Valve Boxes

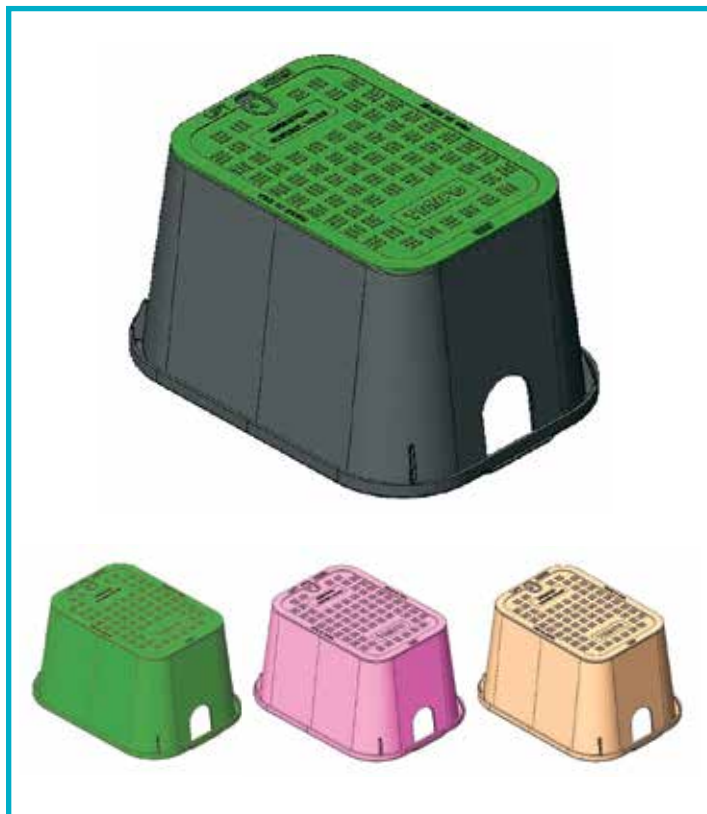

A robust 14" X 19" standard rectangular valve box with snap-in lid. Used as a durable enclosure to protect and provide easy access to valves or subsurface components of an irrigation system. Has overlapping lid to prevent dirt and grass from lodging between lid and body.

Features:

- Available in green, black, sand and purple.
- Secure snap-in lid.
- Easy removal of lid.
- Skid resistant lid.
- Lockable lid option to prevent vandalism.
- Extra ribs for additional side wall support.
- Bottom flange to prevent sinking.
- "ICV" or "Reclaimed Water" marking.
- Overlapping lid prevents dirt and grass entering box.
- Pre-molded pipe slots (fits up to 2.5" diameter pipe).

Standard Low Profile Valve Box

A robust standard low profile valve box with snap-in lid. Ideal for shallow pipe and valve installations with a height of 6.75" (compared to a normal box height of 12.50"). Used as a durable enclosure to protect and provide easy access to valves or subsurface components of an irrigation system. Has overlapping lid to prevent dirt and grass from lodging between lid and body.

Features:

- Available in green, black, sand and purple.
- Secure snap-in, skid resistant lid.
- Recessed corners on valve box for easy removal of lid.
- Can be used with standard valve box as a riser.
- Lockable lid option to prevent vandalism.

Standard Valve Box Riser Extender

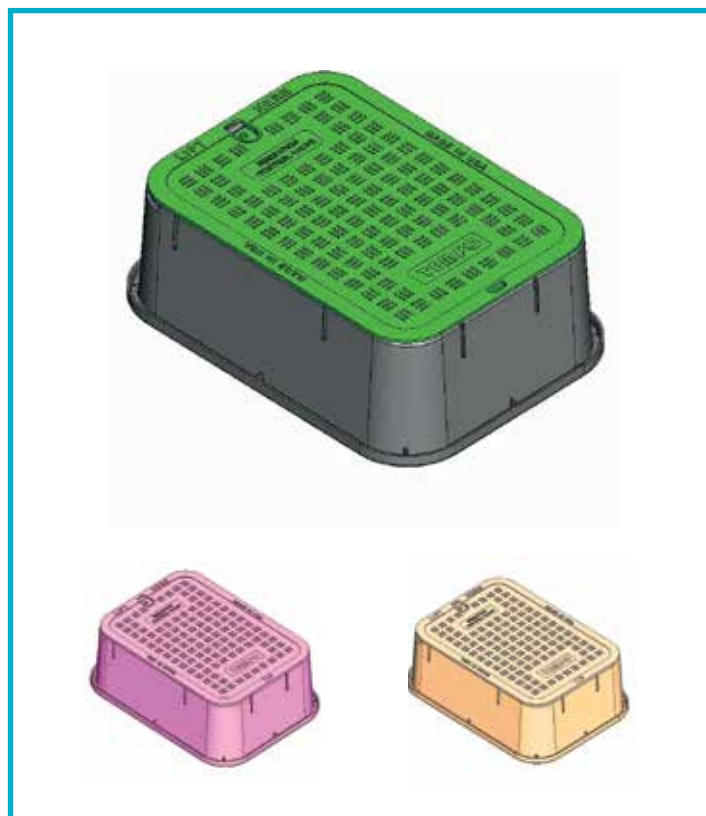

A robust standard valve box riser extender can be used to increase the height of a standard valve box by 5" when stacked together. Accepts standard valve box snap-in lid. Multiple riser extenders can be stacked on top of each other to increase height by 5" per extender. Can also be used as a standard low profile box when combined with standard lid.

Features:

- Available in green, black, sand and purple.
- Accepts secure snap-in, skid resistant lid.
- Recessed corners on valve box for easy removal of lid.
- Lockable lid option to prevent vandalism.
- Extra ribs for additional side wall support.

BARBED, THREADED AND DUAL HEAD FOGGERS

Features

- Operating range from 35 to 75 psi.
- Can be taken apart for easy cleaning.
- Manufactured from durable engineering grade plastics.
- Vortex design to produce fine mist.
- Excellent droplet size uniformity.
- Includes O-ring for tight leak proof seal.
- Color coded for easy flow rate identification.
- UV stabilized.
- Made in USA.

Technical

- Average droplet size of 70 microns.
- Recommended filtration of 200 mesh.
- Use with 1/4" Poly tubing (0.160" ID for threaded version or 0.170" ID for barbed version).
- Barbed version also clips directly into 1/2" or 3/4" Poly tubing.

DOWN FAN SPRAY JET

- Operating range from 20 to 40 psi.
- 360° gentle downward spray.
- Narrow cone angle of 90°.
- Built in shut off feature.
- Quick twist thread for fast installation.
- Available also as an assembly (jet, stake and tubing).
- Uses 0.150" ID x 0.220" OD tubing.
- UV stabilized.

BENT DRIP STICK

- Designed to water potted plants.
- Standard drip stick is 6" long and is used for larger pots.
- Short drip stick is 4" long and is used for smaller pots.
- Built-in filtration.
- Can be used with PC drip emitter to control flow rates.
- Used with various manifold options.
- Available as a full assembly (drip stick, manifolds and tubing).
- Tubing size is 3 mm (0.120") ID x 5 mm (0.195") OD.
- White tubing is recommended.
- Each drip stick flow rate can be calculated by dividing the controlling PC emitter flow rate by the number of drip sticks it is connected to.
- Recommended operating pressure range from 10 to 40 psi.

AGRIJET™ MICRO-SPRINKLERS

- Operating range from 10 to 30 psi.
- No moving parts.
- Quick twist thread for fast installation.
- Color coded nozzles for flow rate identification.
- Wide range of flow rates available.
- Open frame design to minimize bugs affecting spray patterns.
- Deflector cap available for reducing diameter.

PC DRIPPERLINE w/ CHECK VALVE

- Pressure compensating between 10 and 50 psi.
- Check valve opens at low pressure of 7.5 psi.
- Includes check valve that closes at approximately 2 psi to prevent drainage of line on shut down.
- Anti-syphon feature to prevent dirt from being sucked back if a vacuum occurs.
- Consistent clog free performance.
- 2 flow rates available.
- Wide variety of spacings available.
- Long lasting silicone diaphragm.

Products manufactured by Tempo Products Inc. are warranted to be free from defects in material and workmanship for a period of one year from date of delivery.

This warranty is expressly conditioned upon the proper installation and application of the product as recommended by Tempo Products Inc.

Within the period of this warranty, Tempo Products Inc. is obliged to repair or replace part or all of product, or to refund a part or all of the original purchase price, if any part proves defective in material or workmanship. The option to repair, replace or pay a refund shall be at the sole discretion of Tempo Products Inc. Misuse, neglect, modification or unauthorized repair shall completely void this warranty.

This warranty constitutes the exclusive warranty made by Tempo Products Inc. for its products and is expressly in lieu of all other warranties, express or implied, including warranty of "merchantability" or "fitness for purpose".

Tempo Products Inc. will not be liable or responsible for incidental or consequential damage of any nature. Tempo Product Inc.'s sole liability and responsibility shall be for the repair or replacement of defective parts or refund of part or all of the original purchase price therefore pursuant to this warranty.

This warranty is not deemed a consumer warranty and does not extend to anyone else other than those who purchase products from Tempo Products Inc. for resale.

This warranty is only effective if notice of any claim is delivered to the company within 30 days after discovery of any defect. Tempo Product Inc. neither assumes nor authorizes any representative or other person to assume for us any liability in connection with the sale or any shipment of our products.

Authorization must be obtained from the factory before any product may be returned. All authorized returns must be returned freight pre-paid, must be in a clean and salable condition and may be subject to a 20% restocking charge.
